Brisbane, QLD 4101 • zarizah.chowdhury@gmail.com • 0404552737 • linkedin.com/in/zarizachowdhury

Analyst with experience in telecom commercial performance, dashboards and product launches. Used to working with sales, marketing, customer experience, finance and tech teams to turn data into clear plans and recommendations people can act on. Strong in SQL, Tableau and Power BI, with a track record of making reporting faster and easier to use.

Skills

- **Analysis:** SQL, Python, R, Excel, KPI and revenue analysis, forecasting, customer segmentation, churn prediction, pricing analysis, performance tracking
- **Dashboards and reporting:** Tableau, Power BI, automated reporting, self-service dashboards, executive performance reporting, commercial insights
- **Data platforms:** Oracle, Snowflake, Databricks, dbt, data cleaning & modelling, data marts, query-ready databases, CRM
- **Commercial:** Product launch & strategy, go-to-market planning, revenue tracking, campaign management, competitor pricing analysis, performance reviews
- **Ways of working:** Stakeholder management, requirements analysis, business process mapping, cross-functional alignment, training and documentation

Experience

Sales Associate — Sydney, Australia
Uniqlo Australia — Mar 2024 - Jan 2025

- Acted as shop floor lead, overseeing the floor and team and handling customer issues during those shifts.
- Served customers on the shop floor and kept fitting rooms, checkout and store standards in order.
- Processed deliveries and managed stock and back of house.

Product Manager, Postpaid *(promoted Apr 2023)* — Dhaka, Bangladesh
Robi Axiata PLC *(second largest telco in Bangladesh)* — Sep 2022 - Oct 2023

- Owned the postpaid business unit (~BDT 42m/year), responsible for commercial performance from analysis and pricing through to launch and tracking.
- Planned and launched new products and campaigns end to end, from segmentation and competitor analysis through marketing, IT integration and UAT with customer experience, to post-launch performance tracking.
- Worked with the sales team on go-to-market for new products and campaigns, including retail launch and distributor alignment, tracking revenue and reviewing retailer plans to support execution.
- Took accountability for unit results, setting up and running product and retention campaigns in the CRM with marketing, sales, tech, risk and compliance, and finance.
- Set pricing and launched voice and data products, lifting yearly postpaid revenue by 12.4%.
- Designed segmented retention campaigns that cut quarterly churn by 18.2% and gave leadership clear actions.
- Built performance forecasting models for launches and activities, and reporting used in executive performance reviews.

Business Analyst — Dhaka, Bangladesh
Robi Axiata PLC — Apr 2021 - Sep 2022

- Supported the Product & Pricing and Enterprise (B2B) teams, using SQL on customer and revenue data to find growth opportunities and check campaign profitability.
- Built a Tableau dashboard with role-based access (managers, team leads, specialists) for daily, weekly and monthly performance tracking. It was the first screen teams opened each morning.
- Automated recurring performance reports on Oracle, cutting manual work and showing process gaps in Tableau.
- Tracked campaign and project KPIs and gave stakeholders data-backed insights and recommendations.
- Automated commission payroll for key account managers, saving 2 hours/week and removing calculation errors, so finance had a consistent, auditable process.
- Collaborated with the predictive analytics team to build a commission forecast model for commission budget planning.
- Documented requirements, handed over data models and dashboards, and trained users to run them.

Business Insights and Research Analyst Dhaka, Bangladesh
Upskill Dhaka *(ed-tech startup)* Oct 2020 - Mar 2021

- Co-authored a winning tender with two startups to run Grameenphone's startup accelerator program, and owned the budget, value proposition and proposal.
- Turned competitor, consumer and market data into structured Excel reports that gave leadership a clear base for strategic planning.
- Managed budgets, timelines and stakeholders across several projects at once.

Key Projects

MSc Capstone Project: Competitor Pricing Database and Churn Prediction Vienna, Austria
Magenta Telekom *(second largest telco in Austria)* Mar 2026 - Jun 2026

- Analysed competitor pricing across the Austrian telecom market to find positioning gaps.
- Scraped competitor prices from public websites using AI tools and built a query-ready database for repeatable analysis.
- Built an interactive dashboard to compare pricing trends by operator and product tier.
- Built an experimental regression model to test whether competitor price gaps affected next month's churn.
- Documented the process so Magenta's analytics team could add the new variables to their existing churn model.

Skills & Tools used: Python (Jupyter Notebook), Excel, AI-assisted web scraping, data cleaning, data modelling, linear regression, Tableau, interactive dashboarding, competitor pricing analysis

Company-wide Data Democratisation Dhaka, Bangladesh
Robi Axiata PLC Jul 2021 - Dec 2021

- Led a company-wide project that reduced reliance on the analytics team, freeing them from BAU requests to focus on projects and new initiatives.
- Built 200+ Tableau dashboards and data marts with scheduled refreshes (robotic process automation), easing load on the enterprise data warehouse and reducing refresh backlogs.
- Trained business teams on Tableau to move them away from manual Excel reporting.

Skills & Tools used: Tableau, data marts, SQL, training, stakeholder engagement

Enterprise (B2B) Performance Dashboard Dhaka, Bangladesh
Robi Axiata PLC Oct 2021 - Dec 2021

- Built a Tableau dashboard with hierarchical security: managers saw everything, team leads saw their team, account managers saw their own accounts.
- Tracked revenue, accounts, ARPU and average price per customer in one top-down view, so leaders could spot issues without waiting for manual reports.
- Merged data sources into a master source that refreshes the dashboard automatically, removing manual time-lag.

Skills & Tools used: Tableau, Power BI, SQL, data cleaning, data modelling, row-level security, KPI analysis

Automated Commission Reporting for Enterprise Business Key Account Managers Dhaka, Bangladesh
Robi Axiata PLC Nov 2021 - Nov 2021

- Replaced manual calculation with an automated monthly report, saving 2 hours/week, removing errors and audit risk.
- Built a single data warehouse source combining sales, client, usage and revenue metrics.
- Created a rolling dashboard giving account managers a live view of their commission through the month.

Skills & Tools used: Data warehousing, data modelling, SQL, Oracle, report automation, self-service reporting

Education

Master of Science in Business Analytics *(with distinction)* Vienna, Austria
Central European University Sep 2025 - Jun 2026

Bachelor of Arts in Economics *(cum laude)* Chittagong, Bangladesh
Asian University for Women Aug 2017 - May 2020
